How to Have Thicker, Fuller, Denser Looking Hair

[Firstname] [Lastname]

[MONTH] [DAY], [YEAR]

Dear [Firstname],

Is thinning hair something you just have to accept as you get older?

Well, the straight answer is: Yes -- and no.

Listen, some hair loss is hereditary. If your father had a big bald spot by age 35 - odds are - you will too. Anyone who tells you differently is trying to sell you snake oil! That's just plain fact.

However, this is also true [Firstname]: While some degree of hair loss with aging is inevitable,

Most of it is Entirely Up to You.^{1,2}

Here's why:

Did you know that when hair is healthy, about 90% of it is growing, while the other 10% rests? The rested hair is then shed, and new hair sprouts up in its place. The cycle then begins anew.

Sounds simple. But it's not. Your hair follicle cells have to work fast. And hard. They divide rapidly. Produce lots of keratin - the key substance that makes up your hair. This fervor of activity makes them extremely sensitive to "nutrient deficiency."

Think of Your Hair Follicle as an Assembly Line.

Any vitamin or mineral deficiency is like a critical part that hasn't arrived. Result: The line grinds to a halt. Cells stop making keratin. Your hair stops growing. The percentage of your hair in the resting stage rapidly increases. Say from 10% to 15%. Maybe 20%.

And, worst of all, because it's "rested" it falls out faster than new hair can sprout!

That's when you notice hair - not on your head - but on your brush. On your comb. Is that you?

If so, [Firstname,] you can help re-start your

All-Natural Supplement Helps Turn Stored Body Fat Into Energy - Throughout the Day

Dear friend,

Here's an exciting opportunity for you to try ThermAway™.

ThermAway™ can help you shed unwanted pounds and inches. Naturally. Safely. Quickly.

Without dangerous drugs. And no chemicals.

Studies at Switzerland's prestigious University of Geneva and reported in leading American medical journals, show that ingredients in ThermAway™ can help you lose weight by converting body fat into thermogenic energy.¹

What does that mean? Just think of a bear hibernating in his cave. Does he freeze? Starve? No! He burns up stored fat, keeping him warm and nourished. Come spring, he's lean, mean and ready for action! That's thermogenesis!

More importantly, you can use all-natural ThermAway™ to burn stored fat the same way, as

part of your overall weight loss program. Watch as those extra pounds seem to melt. Make your mirror your friend again.

Here are three important ways ThermAway™ is different than other weight-loss products you may have used in the past:

1. It gives you increased energy: The ingredients in ThermAway™ help turn stored fat into energy, so you'll have more get-up-and-go. Naturally.¹

2. It helps maintain muscle: This exclusive formula helps preserve muscle mass (lean tissue) even as it accelerates fat loss.²

3. It promotes improved digestion: ThermAway™ helps your digestive system work more efficiently. That helps convert more of the food you eat into energy. Not fat.^{3,4,5}

ThermAway™ is specially formulated to enhance weight-loss, when used as part of your overall healthy diet and sensible exercise program.

Friendly, knowledgeable customer service is a top priority at Tabak's Health Products.

And ThermAway™ is 100% natural. Contains no Ma Huang. It's completely safe for everyday use.

Suggested Dosage

Take two capsules a day. You can take them both together, or spread apart. It's up to you.

The ThermAway™ formula works most productively when you abstain from eating or snacking anything for 3 hours before your bedtime.

The sooner you begin using your ThermAway™, the sooner you'll start turning body fat into energy!

Open up your bottle and begin using it according to the directions, today.
